MINDSET MINDSET Mith this bulletin board, students can display their mindset moments to the class!

GROWTH MINDSET FOR TEENS

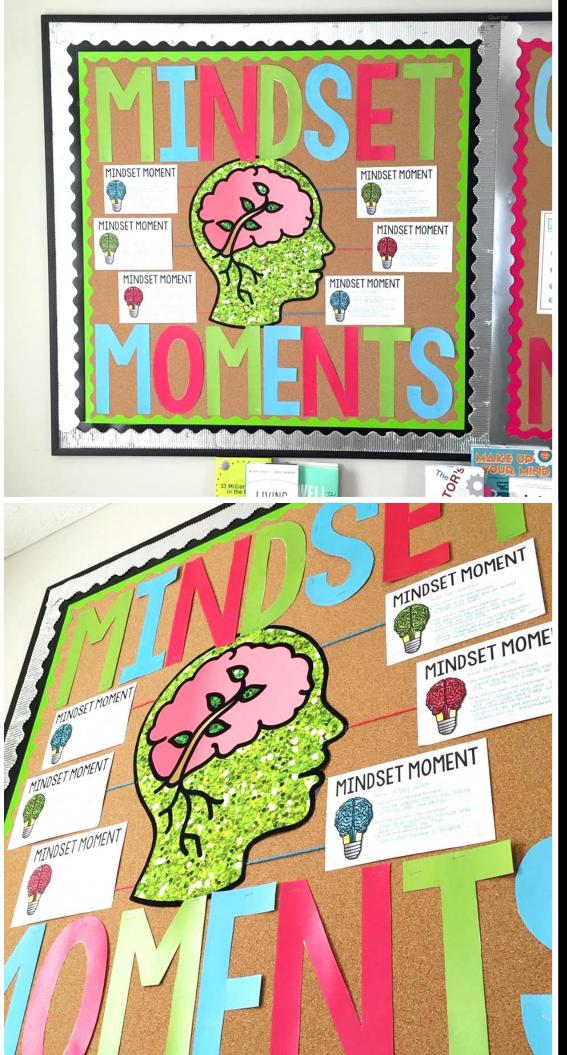

WHAT IS A MINDSET MOMENT?

A "mindset moment" is an experience someone has in which he or she uses growth mindset to overcome obstacles-leading to success!

For example: Even though Kate had previously failed her Algebra II tests, she passed her final exam because she put forth extra effort. She went to tutoring 3 days a week after school and designed flash cards to help her remember important formulas.

MOMENTS LIKE THESE SHOULD BE CELEBRATED.

With this bulletin board, students can do just that! They can tell their peers about their mindset moment & why they deserve the success.
